

## Our Mission

Regulatory affairs consulting that puts people first.

## Our Belief

The TRAC founders created a new kind of consultancy, one that combines professional regulatory affairs services with a friendly, personal approach. Today we continue to grow, driven by that same ethos, forging lasting relationships with clients and team members alike. We know that it's people who drive our success.

## How we help

TRAC is an award-winning, independent regulatory affairs consultancy providing project management, full regulatory management and advice on regulatory requirements and strategy to the healthcare industry. We offer a bespoke service, depending on individual needs, and are proud of being recognised for going that extra mile to support our clients.

## What we do

We provide pharmaceutical regulatory affairs consulting for all stages of the product lifecycle:

- + Scientific Advice Meetings
- + Clinical Trial Applications
- + Marketing Authorisation Applications
- + PIL Authoring, Testing and Bridging
- + eCTD and NeeS Publishing & Submissions
- + Variations and Renewals

## Market Sectors

Dedicated to serving the global healthcare industry, we work with a wide range of companies, from large multinational healthcare concerns to start-ups. We cover small molecule, large molecule, Rx & Cx medicinal products and medical devices.

## Geographic Scope

Primary: UK & Ireland

Secondary: EU/Global

## Our Team
